**Two Thousand Watermelons.**  
This sounds pretty big, but it only represents the actual sales made by the bustling fruit firm of George W. Shurtart & Co., in eight hours yesterday. The five cars of the Missouri melons that Mr. Shurtart selected himself, arrived on one train yesterday. The first car was opened at 10 o'clock and before 6 a car and a half had been disposed of, and 800 more melons were sold and would have been delivered if it had been possible. These are the finest melons ever brought to Decatur, and the supply will be exhausted before Saturday if the rush continues. Therefore dealers should send in their orders at the earliest possible moment. Strange to say that notwithstanding the enormous demand for watermelons, the banana trade is as big as ever.

**The First Sewer Accident.**  
Yesterday about 3 in the afternoon occurred the first accident on the Broadway sewer that resulted in injury to anyone. It was at a point where they cut through a cross drain that met the sewer. One of the great iron buckets was being hoisted, and unknown to anyone, one of the tiles on which it had been resting stuck in the mud on the bottom of the bucket, and when it reached a height of several feet, fell on Frank Patterson, who was under it. It struck his arm and side and cut them quite badly. He was removed to his home on Central avenue, and will doubtless not be out for a week or more. He has a wife and two children.

To-morrow work will be commenced on the Union street sewer, at the south side of Decatur street.

**The Institute.**

Conrad, the classes in the sciences; Miss Anderson will give instruction in music and in drawing.

The list naming by the county is as follows: The corps of instructors consists of Professor J. B. Sellers, president of the Indiana State Teachers' association, who teaches reading, grammar and literature; Professor J. V. Hardin, of DeWitt, who has zoology and botany; Prof. J. W. Condit, the retiring principal of the Clinton schools, is a prominent instructor, and Professor Owen, the new principal, is also teaching classes, and Professor Warren, of Midland City, is employed.

### BE BUILT AT ONCE.

The Order for Material for the Short Line Extension Telegraphed Last Night.

By a unanimous vote last night the city council granted the changes asked for by the Short Line in their proposed extension into the Fourth ward. This means that the road will be built within the next 60 days, and the Fourth ward will be placed on a par with all the other wards in the city and will have its electric street railway. The material had all been arranged for before hand, and as soon as the ordinance was passed last night, a telegram was sent to ship the material at once, and part of it is expected to arrive this week. Work will be started at the earliest possible moment and will be pushed forward as rapidly as possible.

The ordinance as passed by the council only puts the line to Conrad Amman's corner, but this is as far as the city limits extend. The road will be extended through Mills & Starr's subdivision. It is fair to presume that there will be quite a boom in Fourth ward real estate in the next few months.

**Two Thousand Watermelons.**  
This sounds pretty big, but it only represents the actual sales made by the bustling fruit firm of George W. Shurtart & Co., in eight hours yesterday. The five cars of the Missouri melons that Mr. Shurtart selected himself, arrived on one train yesterday. The first car was opened at 10 o'clock and before 6 a car and a half had been disposed of, and 800 more melons were sold and would have been delivered if it had been possible. These are the finest melons ever brought to Decatur, and the supply will be exhausted before Saturday if the rush continues. Therefore dealers should send in their orders at the earliest possible moment. Strange to say that notwithstanding the enormous demand for watermelons, the banana trade is as big as ever.

### HURRY IN YOUR VOTES.

Only Three More Days in Which to Work For Your Favorites.

There were 377 votes polled in The Review popular park name contest yesterday, which brings the grand total up to 3,040. It will surely go over 4,000 before the contest ends at midnight Friday. The time is getting short. Only three days for work remains, and in order that there may be an added zest to the contest the votes will not be printed after this morning until the final result is announced. Nor will it be given out from the office. The vote cast each day will be given in order that the friends of each vote may be able to hazard a conjecture as to the votes their competitors have sent in. This will make it a little more interesting. There are four leaders, all of which stand a good show of winning. Let the friends each do as much work as possible in the next three days. The result of the entire vote will be printed in full in next Sunday's Review.

**THE VOTE OF YESTERDAY.**  
The vote on first choice was as follows: Columbia, 117; Fairview, 90; Spring Valley, 79; Shell, 58; Washington, 9; West Linn, 4; and the rest scattering. This leaves the five leaders the same as yesterday.

For second choice the vote was: Big Oak 77; Washington, 47; Columbia, 35; Forest, 20; Windsor, 11; Fairview, 7; Shell, 4; Linn, 3; Oakview, 3. The five leaders on second choice are: Big Oak, Forest, Washington, Fairview, and Columbia.

## SHORT LINE ROUTE.

### THE CHANGE IN IT MADE BY THE CITY COUNCIL.

Not Much Else of Importance Before the Meeting—Ordinances for Lateral Sewers—Various Small Matters of Business Disposed of Before an Early Adjournment.

The council was called to order at 8:15 last evening by the mayor. The call of the roll indicated that all the members were present. In the absence of the city clerk, City Attorney McDonald performed his duties.

THE SHORT LINE EXTENSION.

A petition of all the owners of all the property fronting on Lawrence street from Broadway to Webster street, and on Webster street from Lawrence street to Central street, praying the passage of an ordinance to grant the Decatur Short Line Railway company the right to lay its tracks on said streets, was read and placed on file.

An ordinance granting a franchise on the street, as prayed in the petition, was read, and on motion of Ald. Scanlan the rule was suspended and the ordinance passed, all aldermen voting aye.

WANTS A CROSSING.

A petition was read from Thomas Hughes, blacksmith, asking that the street crossing in front of his shop torn up in building the Broadway sewer, be repaired. Referred to the committee on public improvements.

WANTS TO FLOOD.

The petition of L. L. Sweet to be permitted to peddle tinware, was read and referred to the city marshal, with power to act.

LETTERS.

Letters from the Addison Pipe and Steel company acknowledging the receipt of a draft on account, and stating balance still due were read. The mayor explained that the said balance would be paid as soon as the pipe was delivered, and approved, were read and ordered to be paid.

LETTERS.

An ordinance was read providing for the alley between North and William streets, and thence along and alley from Broadway to the east line of the alley between Jackson and Franklin streets; also an ordinance for a 12 inch sewer along William street, from the Union street sewer to within 30 feet of the city limits, on motion of Ald. Adjourned.

THE FIRE.

A small fire broke out in the grocery store at 749 North Water street. It would not have been any interest of itself, but the accident to the firemen is of considerable importance to the occurrence. The fire was put out before the department got there.

As the horse wagon from No. 2 house came down the street, from the east, the horse was going at full speed, could not be checked up by the driver, and could not be turned until almost across Water street. Mason street stops there and a row of stores run along the west side of Water street. The people in the stores thought the horse wagon was going into the stores, and there was a lively hustling to get out of the way. The baby of Louis Crasswell was in his buggy on the sidewalk directly in the path of the fast flying horse. The mother saw what appeared to be the danger, and she grabbed the buggy and jerked it so hard that she jerked it from under the child, which fell on its head on the pavement. It was badly bruised, but the injury did not appear to be serious. Meanwhile the fire department horses had turned after crossing the street car track, the horse wagon wheel had struck a big telephone pole and been thrown on down Water street. Both horses were thrown down, the firemen were either thrown off or jumped off, and all the women in the neighborhood screamed. No damage was done. The people who were there thought the telephone pole kept the horse wagon out of the drug store of Hall & Myers.

The wagon from horse house No. 1 did not get to the scene of the fire without incident. On Main street as the horses were going at a full run past Peter Pen's place the big gray slipped on the smooth pavement, went down on its side and slid across Prairie avenue. As soon as the wagon was stopped the horse got up and went along all right.

The man or woman in Decatur who does not ride a bicycle is old-fashioned, and as far behind the times as the man who uses an infant to light his pipe.

After a few more excursions leave, there will be only three or four of Decatur's 20,000 people at home. The local 400 have already transported themselves to cooler climes.

Although the supervisors of neighboring census districts have completed their work and published their returns, Supervisor Fisher, of this district, has given out nothing, and is not through. He received instructions from Washington to send a great many schedules back to the enumerators for correction and for fuller answers. Some of those schedules came back to Decatur enumerators. Three enumerators in Macon county have not made their final report yet.

We sold England last year \$475,000,000 worth of goods and bought from her only \$150,000,000 worth. There is a strong feeling in England now in favor of putting duties on our goods as retaliation for the McKinley bill. If that is done we should manifestly be the heavier losers—and our farmers the heaviest losers of all.

## W. C. T. U. DAY.

The Ladies of the Union Take Charge of the Campaigning.

Yesterday was W. C. T. U. day at the campaigning, and the ladies had everything their own way. They generally have that every day, though for that matter. There were a great many more W. C. T. U. members present from outside the city than usual, ladies being present from Macon, Cairo, Gordo, Warrensburg, Macon and other places. The afternoon audience was larger than usual, and the meeting at attendance was clearly altogether caused by women.

The first service of the day was for children. Mrs. Baxter spoke, taking "Snakes" as her subject and beginning with a good snake story. Mrs. Baxter closed by getting a promise from each child present to come to-day and bring five other children. A big attendance is certainly just expected.

The usual morning meeting was opened by a gospel service in charge of Mrs. Baxter. Speeches were made by several men and women. It had been expected that Mrs. Sanford, district president, would speak, but she was kept at home by the sickness of a sister.

Gordon H. Bond, a prominent member of the union at Bloomington, came in Mrs. Sanford's stead, and after an earnest opening address, took charge of the meeting for the day. Mrs. Crowder, Mrs. Kate Huchess and others made short speeches.
